TPP Techno Plastic Products AG

Raw Material Safety Data Sheet

Product: POLYETHYLENE

Issue Date: January 1, 2022

1. Identification of the substance / preparation and of the company / undertaking

Name of product: Polyethylene

Material use: Raw material for plastic industry

Company: TPP Techno Plastic Products AG

Zollstrasse 7

8219 Trasadingen

Switzerland

Tel. +41 (52) 687 01 87 Fax +41 (52) 687 01 77

E-mail address: info@tpp.ch

2. Hazard identification

Not a hazardous substance or mixture to our knowledge.

3. Composition / information on ingredients

Chemical name: Polyethylene polymer

Contains no substance classified as hazardous in concentrations, which should be taken into account according to EU regulations.

4. First-aid measures

Route of exposure:

Inhalation: After inhalation of decomposition products, remove the

affected person to a source of fresh air and keep calm. Provide

medical aid.

Skin contact: Areas affected by molten material, quickly place under cold

running water. Obtain medical attention.

Eye contact: Wash affected eyes for at least 15 minutes under running water

with eyelids held open.

Note to physician: Treat according to symptoms (decontamination, vital

functions), no known specific antidote.

Raw Material Safety Data Sheet

Product: POLYETHYLENE

Issue Date: January 1, 2022

5. Firefighting measures

Suitable extinguishing media: Water, dry extinguishing media, foam

Specific hazards: Principal toxicant in the smoke is carbon dioxide, carbon

monoxide.

Special protective equipment: For firefighters: wear suitable breathing equipment, in case of

risk of exposure to vapor or fumes.

Further information: Dispose of fire debris and contaminated extinguishing water in

accordance with official regulations.

6. Accidental release measures

Suck or sweep up spill. All spill of material must be removed immediately to prevent slipping accidents. Dispose waste in accordance with local or national regulations.

7. Handling and storage

Handling: Processing machines must be fitted with local exhaust

ventilation. Protection against fire and explosion: When the product is ground (chopped), dust explosion regulations should

be noted.

Storage: Further information on storage conditions: Protect against

moisture.

8. Exposure controls and personal protection

Components with workplace control parameters. Observe the appropriate MAK value (Germany). The values and other data of TRGS 900 (Germany) must be observed. Given suitable ventilation, it can be assumed that the threshold limits will not be reached.

Personal protective equipment

Respiratory protection: Particle filter, low efficiency (solid particles of inert substances)

Eye protection: Safety glasses

General: Safety and hygiene measures: avoid inhalation of vapor

Solubility in water: Insoluble

9. Physical and chemical properties

Form: Pellets

Colour: Solid, natural colour

Odour: Odourless

Melting point: $> 100 - 140 \,^{\circ}\text{C} \, (DIN/EN/ISO 11357-3)$

Ignition temperature: > 320 °C

Density: $>0.9 - 1.0 \text{ g/cm}^3$

10. Stability and reactivity

The product is a stable thermoplastic, with no chemical reactivity.

11. Toxicological information

The product is not classified as hazardous to human health.

12. Ecological information

The product is not considered dangerous for the environment. Not readily biodegradable. Does not accumulate in organisms. Avoid release to the environment.

13. Disposal considerations

Waste of disposal must be according to local regulations.

14. Transport information

Not restricted for transport (ADR/RID, IMDG or IATA)

15. Regulatory information

Not classified according to Annex I, Directive 67/548/EEC (dangerous substances) and 1999/45/EC (dangerous preparations).

Contains no REACH substances with Annex XVII restrictions.

Contains no substances on the REACH candidate list

Contains no REACH Annex XIV substances
