

## TPP California Proposition 65 Statement

Please be advised that TPP Techno Plastic Products AG, Zollstrasse 7, 8219 Trasadingen, Switzerland, has thoroughly evaluated its products and determined that, when used as intended, they do not expose users to chemicals at levels requiring a warning under California Proposition 65.

California Proposition 65 requires businesses to provide warnings about significant exposures to chemicals known to cause cancer, birth defects, or other reproductive harm. TPP confirms that its products do not pose such risks under normal and intended use conditions.

The list of chemicals regulated under Proposition 65 is updated regularly and currently includes approximately 900 substances. To ensure ongoing compliance, TPP continuously reviews its products against the latest version of the Proposition 65 chemical list.

For reference, the current official list of Proposition 65 chemicals can be accessed here:

[California Proposition 65 Chemical List – OEHHA Official Website](#)

If you require further information or have specific questions regarding California Proposition 65 compliance, please do not hesitate to contact us.
