

Halal Statement

TPP Techno Plastic Products AG

Materials Used

TPP products are manufactured using high-quality, ultra-pure virgin raw materials. No stripping agents or plasticizers (e.g. phthalates), biocides (e.g. DIHEMA), or lubricants (e.g. oleamides, stearamides, erucamides) are used.

All raw materials comply with the requirements of USP Class VI and relevant medical device material guidelines. TPP products do not contain melamine, silicone, latex, or any animal-derived substances or by-products. No latex or animal-derived materials are used during the manufacture or packaging of TPP products.

The use of ultra-pure raw materials minimizes the risk of leaching substances from plasticware into buffers, media, or solvents.

Animal Origin / TSE / BSE

No chemicals, additives, or ingredients of animal origin are intentionally used in the manufacturing process. TPP products are not exposed to animal-derived materials during manufacturing, storage, or transport. All products are free from BSE (Bovine Spongiform Encephalopathy) and TSE (Transmissible Spongiform Encephalopathy).

Halal Statement

TPP products are manufactured from virgin medical-grade polymeric raw materials.

Based on information provided by our raw material suppliers and our knowledge of the manufacturing process, TPP confirms that:

- No ingredients derived from pork or other non-Halal animal sources are intentionally added to the products
- No animal-derived ingredients are intentionally used in the manufacture of the products
- The products do not intentionally contain alcohol or other ingredients that are generally regarded as non-Halal
- The manufacturing process does not intentionally employ materials derived from porcine or other non-Halal animal sources.

This statement is based on information available to TPP Techno Plastic Products AG and on declarations received from our raw material suppliers. It is provided to the best of our knowledge and belief.

TPP Techno Plastic Products AG is not certified by a Halal certification body. Accordingly, this statement shall not be interpreted as, or used in place of, an official Halal certificate.

Disclaimer

TPP products are intended for Research Use Only (RUO) and are not approved for clinical, diagnostic, or in vitro fertilization (IVF) applications. The full Terms & Conditions, including limitations of warranty and liability, intended use, and reseller obligations, are available at:
