

TSE/BSE Declaration – Animal-Origin-Free

TPP AG hereby declares that all TPP products are manufactured exclusively from synthetic, virgin raw materials. No raw materials, processing aids, additives, or other intentionally added substances of animal or human origin are used in the manufacture of TPP products.

The raw materials used are not derived from animal material and are therefore not derived from Specified Risk Material (SRM) as defined in Regulation (EC) No 999/2001, as amended.

Based on the information and declarations provided by qualified raw material suppliers and TPP AG's internal supplier qualification and quality assurance processes, TPP products are considered free from materials of animal origin and do not pose a risk of transmission of Bovine Spongiform Encephalopathy (BSE) or other Transmissible Spongiform Encephalopathies (TSE).

This declaration is issued based on the information available to TPP AG at the date of issue and to the best of our knowledge and belief.

Disclaimer

TPP products are intended for Research Use Only (RUO) and are not approved for clinical, diagnostic, or in vitro fertilization (IVF) applications. The full Terms & Conditions, including limitations of warranty and liability, intended use, and reseller obligations, are available at:
